"LANDMARKS OF LIBERTY" **GOVERNOR JOHNSON'S THEME**

BIRMINGHAM, Ala., May 26.—Governor John A. Johnson of Minnesota was the principal speaker of the day before the alumni association at the commencement exercises at the State University at Tuscaloosa. His subject that the state and the same of the land. "The inherent powers of this Republic," he said, "should not be delegated to the federal government but should reside in the state and the people. They are the original sources of sovereignty and yet the present administration maintains the doctrine of inherent sovereignty in the government. Today the government of the United States denies ernor John A. Johnson of Minnesota was the principal speaker of the day before the alumni association at the commencement exercises at the State University at Tuscaloosa. His subject

In beginning his description of the various landmarks of American liberty, he reverted to 1500 years before the discovery of America, because, he said, American liberty was cradled in the German wilderness. Anglo-Saxon freedom had come down through the centuries to the popular assemblies which decide the issues of peace in the American government today. Anglo-Saxon freedom had come down through the centuries to the popular assemblies which decide the issues of peace in the American government today. He said that the great fact which stands out sharply and clearly throughout the history of European immigration to America is a dominant and universal aspiration for freedom.

Governor Johnson declared that the programme of the Republic is opposed by two dangers. One is a tendency of the federal government to a centralization of power and the assumption of sovereign powers not delegated to it by the constitution and belonging to the state and to the people. The other is

WEATHER CONDITIONS CAUSE OF TROUBLE

Storm More or Less General in the State: Conditions Elsewhere.

The weather doctor was the theme of unlimited criticism by old and young alike Tuesday, and perhaps especially by the latter. It was the scheduled date for the annual field day event of the pupils of the grammar grade schools of the city to be held at Wandamere; but, ob my! it just rained and rained and although it was a general holiday throughout the elementry schools, the much anticipated octasion was called off until some day next week, when the usual contests will be held.

occasion was called off until some day next week, when the usual contests will be held.

The storm, which was one of the heavlest of its kind ever experienced by the people of Salt Lake, was more or less general throughout the northern part of the State, rain and snow being reported at Ogden, Logan, Provo and Heber. In this city fully an inch and one-half of rain fell before 6 o'clock Tuesday evening, and considerable damage was wrought in various sections of the valley. The street car tracks on the northeast bench were buried under deep deposits of gravel and sand which the deluge swept down from the neighboring hills and the streets, where paving is in process, were transformed into a sea of mud. The bath houses at Saltair were blown headlong into the lake and over half of them were turned into a heap of kindling wood. It is estimated that at least \$2000 damage was wrought in this manner.

The storm cleared off considerably Tuesday afternoon, and Dr. Hyatt said, that he felt sure it was entirely over, but alas, shortly after sundown it began again and at a late hour in the evening the sky was overoust with heavy and watery clouds. Concerning the conditions elsewhere, Dr. Hyatt said.

"The plateau storm has increased in energy and moved eastward to Wyoming this morning. Another storm is central over middle Canada. These disturbances have caused rain or snow over portions of Utah. Colorado. Wyoming, Idaho, Montana, Washlington, Oregon, North Dakota, Minnesota, Nebraska, linke region, Ohio valley, south Atlantic and east Guif States, Manitoba and Alberta. Over the north Pacific, Atlantic and east Guif States the barosmetic pressure is high."

FARMERS SEEK TO CLOSE ANACONDA SMELTERS

HELENA, Mont., May 26.—Arguments in what is known as the snoke case were begun today before Judge Hunt in the Federal court. This is a suit instituted by farmers of the Deer Lodge valley against the Anaconda smelters of the Anaconda Copper Mining company, it being alleged that gases and acids from the chimneys have destroyed vegetation and divestock. The testimony was taken belivestock. The testimony was taken be-fore a referee, but objection being made to his findings Judge Hunt concluded to hear argument thereon before render-ing his decision. It is sought to close the smelter and collect damages for alleged destruction of crops and live-

SUICIDE OR ACCIDENT

CAMDEN, N. J., May 26,-The mys cAMDEN, N. J., May 26.—The mystery surrounding the finding last Sunday of the body of a well-dressed woman on the mud flats of Big Timber creek, near Glouchester, N. J., was partially cleared today when the body was identified as that of Mazie Mooney, aged 23, of Northwoodbury, three miles below Glouchester. The identification was made by relatives. was made by relatives.

was made by relatives.

It developed today that the young woman disappeared from the home of relatives at Steelton, Pa., on Saturday. How she reached the vicinity of Glouchester is not known. She was a remarkably attractive girl. A month ago she suffered a nervous breakdown, and, upon the advice of a physician, went to Steelton to remain until fall.

The authorities believe the young woman committed suicide by jumping into the creek, or fell from a trestle bridge. bridge.
